

OPERATION ORDER for Cadet Validation Exercise

DATE: 04 Dec 2025

1. Situation. This validation exercise aims to assess cadet training culminating in practical field operations. The exercise will take place primarily in Jacks Valley, focusing on leadership, navigation, and tactical skills. The event will be conducted over a scheduled training period with all cadets participating according to assigned roles.

2. Mission. Execute a comprehensive cadet validation exercise in Jacks Valley from 1 March to 3 March 2024, to assess preparedness and proficiency in leadership, navigation, and operational tactics, culminating in a graded evaluation for all participating cadets.

3. Execution. Cadets will conduct training activities in Jacks Valley, including navigation tasks, leadership exercises, and tactical scenarios. The exercise will start at 0600 each day and conclude by 1800. Instructors will oversee scenario execution, document performance, and evaluate proficiency. Cadets will utilize designated secure points and follow safety protocols while demonstrating skills learned during training.

4. Sustainment. Ensure logistical support is provided, including water, meals, and medical aid. Cadets should bring personal gear, appropriate clothing, and navigation tools. Command will monitor conditions and provide updates. Emergency procedures will be in place, and points of contact will be available at all times for safety and support.

5. Command and Signal. Command will be exercised by the Lead Training Officer. Communication will be maintained via radio channels designated prior to the exercise. Cadet officers will serve as point persons at various activity stations. All participants will adhere to established radio discipline and safety protocols. Final grading sheets and evaluation reports will be consolidated and archived.
